SUMMARY

Full-Stack Developer specializing in React.js, Node.js, Express.js, and MongoDB, with practical experience building AI-powered applications, multi-vendor marketplaces, and scalable productivity platforms. Experienced in REST API development, JWT authentication, OpenAI integration, Razorpay payments, and dashboard-driven web applications.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, GSAP, Framer Motion, Bootstrap

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, SQL

AI & APIs: OpenAI API, Prompt Engineering, LangChain.js

Tools & Platforms: Git, GitHub, Postman, JWT, Razorpay, Cloudinary, Recharts

PROJECTS

Multi-Vendor E-Commerce Platform (ReactJs, NodeJS, ExpressJs, MongoDB)

[Github](#) [Live](#)

- Built a full-stack marketplace with **JWT** auth and **role-based access** (Admin, Vendor, Customer) using the MERN stack.
- Integrated **Razorpay payment gateway** with secure **signature verification** and optimized **checkout flow**, achieving **high transaction reliability** during testing.
- Developed features like Wishlist, Cart, Order History, and Order Cancellation to enhance **user experience** and **engagement**.
- Designed an **admin/vendor dashboard** with **analytics (Recharts)** and **responsive UI** using Tailwind CSS & React Router.

HealthMate AI – Intelligent Healthcare Assistant (MERN + OpenAI API)

[Github](#) [Live](#)

- Engineered an AI healthcare assistant on **OpenAI GPT-4o** delivering context-aware symptom analysis across **50+ medical scenarios**.
- Architected **multi-tenant RBAC** with JWT & HTTP-only cookies ensuring **HIPAA-aligned** data privacy for patients and doctors.
- Optimized **frontend performance** using React Query and Framer Motion, achieving a **95+ Lighthouse performance score**.
- Integrated **Cloudinary** for medical report management, **reducing server storage** overhead and improving file handling efficiency.

AI-Powered Productivity Dashboard (NeuroDashboard) (MERN + OpenAI API)

[Github](#) [Live](#)

- Built a full-stack **productivity platform** enabling users to **manage tasks**, track **Pomodoro sessions**, and organize daily workflows efficiently.
- Implemented task CRUD operations, **drag-and-drop planning**, and real-time **productivity analytics** using **interactive charts** and dashboards.
- Developed **RESTful APIs** and **MongoDB data models** for task management, session tracking, and **user data handling**.

WORK EXPERIENCE

MERN Stack Developer Intern

Jan 2025 - April 2025

BeanGate IT Solutions Pvt. Ltd, Bhopal

- Developed secure JWT authentication and RESTful CRUD APIs using Node.js and Express.js for a live SaaS platform.
- Built responsive landing pages and reusable UI components with React.js, Tailwind CSS, and Framer Motion.
- Improved frontend user experience with smooth animations, optimized layouts, and reusable component architecture.
- Collaborated in a team environment using Git workflows, pull requests, and MVC architecture on a production codebase.

EDUCATION

Master of Computer Applications (AI/ML)

LNCT University, Bhopal, Madhya Pradesh

CGPA: 7.8 (2023-2025)

CERTIFICATIONS & TRAINING

Frontend Development Training – Sheryians Coding School

[Certificate](#)

Backend Development Training – Sheryians Coding School
